CALL FOR PAPERS

ISSF 2012

10th International Symposium on Supercritical Fluids

The Versatility of Supercritical Fluid
Technology

May 13-16, 2012

San Francisco, California

ISSF
2012

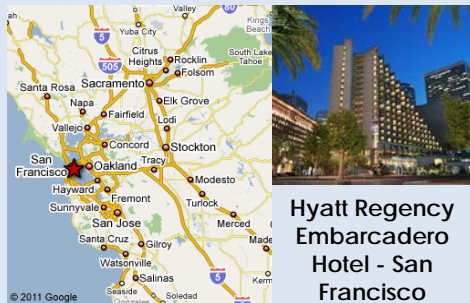

SCOPE

ISSF 2012 is a global conference that brings together an international group of researchers, practitioners, and industrialists who will contribute cutting-edge presentations on emerging applications and processes. The focus of this meeting is to highlight the discovery, development, and production aspects inherent with a wide range of technologies that utilize the unique capabilities of supercritical fluid solvents. This three-day symposium is structured with parallel sessions packed with plenary, keynote, and contributed talks as well as poster sessions.

SCIENTIFIC PROGRAM

- ❖ Bioenergy Conversions
- ❖ Nano- and Particle Technology
- ❖ Polymers & Materials Applications
- ❖ Thermodynamics-Phase Equilibria-Fluid Properties
- ❖ Separation Processes - Chromatography
- ❖ Reactions in Critical Fluids
- ❖ CO₂ Remediation and Environmental Aspects
- ❖ Ionic Liquids and Adjoining Media
- ❖ Natural Products-Foods Applications
- ❖ Process Design and Economics
- ❖ Application to Inorganic Materials
- ❖ Hydrothermal Processing & Inorganic Materials
- ❖ Pharmaceutical-Medical Applications
- ❖ Industrial Applications of Critical Fluids

LOCATION

**Hyatt Regency
Embarcadero
Hotel - San
Francisco**

ABSTRACTS

An abstract less than 300 words should be sent before **December 15, 2011** to Ms. Cunningham
Email: janetbarr@aol.com.

The abstract must be accompanied by a pre-registration form. When submitting abstract, please state if you would prefer to present your paper as an oral presentation or a poster.

PROCEEDINGS

The proceedings will be published in advance of the conference and will be available to the registered participants on May 13, 2012. Instructions will be sent to authors or will be available from the conference website at: <http://www.ISSF2012.com>.

ACCOMMODATION
